

Manufacturer of
NFPA, CUSTOM CYLINDERS &
HYDRAULIC NUTS

Distributor for
FLUID POWER &
INDUSTRIAL COMPONENTS

Manufacturer of NFWA, CUSTOM CYLINDERS & HYDRAULIC NUTS

For over half a century, Higginson has manufactured NFWA tie rod style cylinders that are renowned for their long life in severe applications. We offer both Air and Hydraulic service in bore sizes from 1-1/2" to 12", in all common mounts. Higginson can design or reverse engineer custom cylinders, and we maintain an extensive inventory with fast delivery for standard catalogue sizes.

EconoMax Air Cylinders

Higginson manufactures the EconoMax Series of cylinders for the Truck and Trailer industry. This cylinder is corrosion resistant, and is available in rear clevis mount for bore sizes 2-1/2" to 8". We stock EconoMax cylinders in all common sizes used on dump truck tailgate latches, tarp pulls and belly dumps.

Amtec Hydraclamp

Our family of companies includes Amtec Hydraclamp Pressure Controlled Pre-tensioning and Clamping products.

Warranty

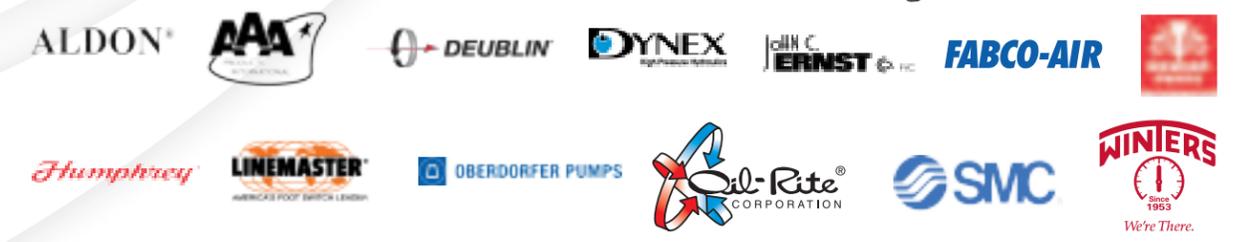

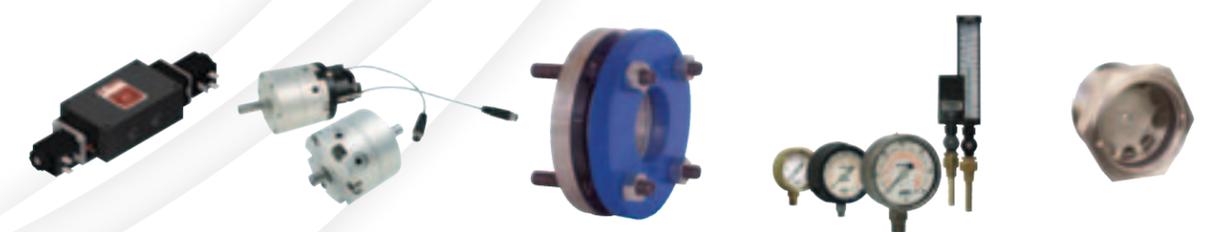

To achieve our high quality standards, all Higginson parts are designed using Solid Modeling and the latest CNC machines within a Kanban production framework. In addition, we have adopted the **Lean Six Sigma** quality control methodology.

Every cylinder is 100% tested by either compressed air or hydraulic pressure before it passes inspection prior to shipment.

Distributor for FLUID POWER & INDUSTRIAL COMPONENTS

Higginson is a distributor of Hydraulic, Pneumatic and Specialty components. Some of the quality lines we represent are Deublin rotating unions, Gusher pumps, Linemaster foot switches, Aldon railway equipment, SMC air preparation, and many more.

Superior Products & Dependable Service

Higginson Equipment Inc. is a Canadian cylinder manufacturer and distributor, who for over 70 years has provided superior products and service to thousands of customers across Canada.

At our head office in Burlington, Ontario, we use the latest technology coupled with Lean Six Sigma for all aspects within our company including CAD for cylinder design, and an ERP system for order entry.

Our knowledgeable and friendly customer service team look forward to answering your call.

Family of Companies
